Circulaire H. De Vries et Boutigny

NOTES ET CRITIQUES

Le Caire, Jeudi 25 Avril 1907.

Le taux de l'escompte libre à Londres a encore fléchi de 1/8 à 3/8 pour cent. Au Stock Exchange, le Consolidé anglais a regagné 1/8 à 85 7/8. L'Unifiée est restée invariée à 102. La National Bank a perdu 3/8 à 24 et la Daira 1/4 à 15 1/2. L'Agricole est demeurée inchangée à 8 3/4 et la Delta Light à 10 1/2.

A Paris, le Crédit Foncier Egyptien a reculé de 4 francs à 723. La Banque d'Athènes a avancé de 1 franc à 124.

Ici, le marché a été aujourd'hui ce qu'il fut hier, c'est-à-dire à peu près nul. Il y a eu une trentaine de transactions enregistrées, qui ont été naturellement pratiquées aux cours de compensation fixés le 12 Avril courant et modifiées en légère partie le lendemain. Comme il est interdit de vendre au-dessous de ces cours, il devient manifeste qu'il y a encore des acheteurs, ou bien qu'on se couvre aux prix indiqués, ce qui est, sans conteste, rassurant.

Au reste, la situation générale du marché nous ditons la situation du marché et non la situation d'aucun — n'a jamais été alarmante, encore qu'elle ait donné lieu, comme partout, à des inquiétudes légitimes à la suite de la récente crise universelle.

Aussi bien, en présence de la stagnation qu'elles déterminent, on est porté à contester l'opportunité des mesures extraordinaires prises pour enrayer la baisse, ou plutôt pour contre-carier les manœuvres des baissiers. On allègue que ces mesures pourraient être mal interprétées à l'étranger et jeter le discrédit sur le marché égyptien. On cite à l'appui les ordres de vente transmis d'ici qui ont, hier encore, une fâcheuse influence sur les cours de la National Bank, de la Daira et du Crédit Foncier, à Londres et à Paris. On en conclut que le système « de laisser faire, de laisser passer » vaudrait mieux que les restrictions imposées, restrictions qui pourraient faire supposer injustement que le marché égyptien est en danger, d'autant plus que le fond de baisse est plus ou moins atteint, qu'il n'y a pas, en tout cas, à appréhender de fortes dépressions additionnelles; que beaucoup de titres pourraient même bénéficier d'une reprise si l'on revenait au régime libre, etc.

Nous nous bornons, pour notre part, à exposer ces observations. Elles méritent d'être sérieusement étudiées par les promoteurs de « l'essai loyal » patronné par les Comités des Bourses du Caire et d'Alexandrie. Cet essai, hâtons-nous de le reconnaître, a été entrepris avec les meilleures intentions du monde et il n'a ni jusqu'à présent aucun intérêt particulier, ce qui n'est pas peu dire. Quelques amendements immédiats, de nature à permettre la reprise des affaires, suffiraient peut-être à rendre conforme à l'intérêt général.

On nous écrit de Londres, à la date du 19 Avril courant :

« Au Stock Exchange, la semaine a été encore très inactive pour les valeurs égyptiennes; mais la tendance, qui était faible dans les premiers jours, s'est quelque peu améliorée depuis hier. La plupart des ordres reçus d'Egypte sont restés inéxecutés et les cours sont nominaux pour l'instant, les transactions devenant de moins en moins nombreuses et les affaires de plus en plus difficiles.

« Les Bourses ont baissé jusqu'à £ 1 11/16 pour remonter à 1 7/8 et clôturer ce soir à 1 13/16; leurs parts de fondateur ont été échangées à £ 16. Les New Egyptian ont été absolument calmes et plutôt faibles malgré la nouvelle de la vente du domaine de Matana. J'apprends à ce sujet que la Compagnie se propose de répartir à bref délai un dividende de 12 1/2 pour cent, soit 2 sh. 6 par action. Les United Lands ont baissé à £ 0 7/8 pour remonter au pair et clôturer à 0 15/16.

« La Banque d'Angleterre n'a pas abaissé son taux d'escompte cette semaine; mais on s'attend à ce qu'elle le réduise bientôt à 4 % en présence des prix de 3 1/2 pour cent et au-dessous qui se pratiquent sur le marché libre.

Nous détachons de la correspondance de Londres du « Moniteur des Intérêts Matériels » de Bruxelles du 19 Avril le passage suivant :

« La démission de lord Cromer des hautes fonctions qu'il remplissait depuis si longtemps et d'une façon si remarquable en Egypte n'a affecté en rien les rentes égyptiennes, car le Stock Exchange est persuadé que l'œuvre accomplie par cet homme d'Etat est suffisamment solide pour se maintenir et porter ses fruits sans l'appui de la présence personnelle de son auteur. L'Egypte est engagée dans la voie de la prospérité; rien ne menace de l'en faire dévier.

Les actionnaires de l'Ibrahimieh Ploughing Co. sont convoqués en assemblée générale extraordinaire pour le 15 Mai prochain, à 4 h. p.m., au siège social au Caire.

A l'ordre du jour : 1°. Rapport du conseil d'administration; 2°. Emission de 1905; sentence arbitrale; 3°. Accord avec la Société Générale des Sucreries et Raffineries d'Egypte; 4°. Mesures à prendre; éventuellement liquidation de la Société.

Le dépôt des titres doit être effectué avant le 6 Mai 1907.

EGYPTIAN DELTA LAND AND INVESTMENT.

AN INCREASE OF CAPITAL.

CONTROL BEING TRANSFERRED TO CAIRO.

An extraordinary general meeting of the Egyptian Delta Land and Investment Company, Ltd., was held on Tuesday the 16th inst., at Winchester House, Old Broad-street, E.C., Sir Auckland Colvin, K.C.S.I., K.C.M.G., C.I.E. (the Chairman of the company), presiding.

The Secretary (Mr. F. J. Horne) having read the notice convening the meeting.

The Chairman said: Gentlemen, When we met on the 19th July last year certain alterations in the memorandum and articles of association of our company were put before you for your consideration and approval, and were subsequently passed and confirmed at the general meeting held in August. At that time there was a proposal before our company to amalgamate with the Egyptian Land and General Trust Company, and in order to carry that proposal into effect we were informed by our legal advisers that it would be necessary to alter the terms of our memorandum of association so as to extend the area of our operations, which was at that time limited to the Delta. As you are aware, the proposal to acquire the Egyptian Land and General Trust Company fell through, but though the same actual necessity did not exist, it was still deemed desirable to proceed with the alteration to the memorandum, and an application was duly made to the Courts to obtain their approval to such proposed alteration. The order of the Court, which reached us in January of this year, was to the effect that before any change in the memorandum of association could be sanctioned the name of the Delta Land Company must be altered. Meanwhile, the railway company had sold their shares in the land company, as not being authorised to hold shares in another company having such extended objects, and so much of the articles of the Delta Land Company as provided for the participation of the Delta Light Railways on their Board, and in their affairs, had been cancelled, and in pursuance of the revision of the articles sanctioned by you, the land company became an entirely independent body, and its connection with the railway company was put an end to. On learning the order of the Court, it was ascertained by me, being at that time in Egypt, that most of the shareholders of the land company, a large majority of the shares of which are held in Egypt, were entirely adverse to the change of name of our company, believing that it would be injurious to its credit and stability. As the proposal for the acquisition of the Egyptian Land and General Trust Company had fallen through, the more urgent necessity of altering the memorandum of association no longer existed (the company proposing mainly to confine its operations in future to the neighbourhood of Cairo), and I was urged to take no further action in the application before the Court; at the same time it was intimated to me that, in view of the changed circumstances, it was, as far as could be ascertained, the unanimous desire of the shareholders of the land company in Egypt to revert to the status quo ante, and to re-establish the connection which had existed between it and the Egyptian Delta Light Railways prior to the negotiations which led up to the meeting of 20th July. I am, as you are probably aware, also the Chairman of the Egyptian Delta Light Railways, and I ascertained that the wishes of the shareholders of the land company coincided with that of the Egyptian section of the Board of the railways, and subsequently, on my return to England, the assent of the London section of the railway Board was accorded to the proposed reversion to the former connection between the two companies.

CONSTITUTION OF THE BOARD.

You are probably aware that by the original articles of association of the land company, to which it is now proposed to revert, four of the seven members of the Board of the land company must be directors of the Egyptian Delta Light Railways, should they be willing to take their seats on the Land Board. Now the whole business of the land company is of an exceptional nature. It is concerned solely with local transactions in the purchase of land and buildings in Egypt, of the merits of which the London section of the Railways Board is necessarily, to a great extent, imperfectly informed. It needs no such expert advice or technical assistance in London as is required, for example, by such an enterprise as a railway or a steamship service. So long as the two companies were associated, constant references between the members of the land company in Cairo and the London directors of the railways, sitting on the Land Board, have nevertheless been found necessary, and the London members were put to a disadvantage by their want of intimate acquaintance with the conditions existing in Egypt and consequently with the merits of the policy, as of the several propositions from time to time put before them. Considerable delay has been thus caused, and the affairs of your company necessarily suffered; the more so that, as you are aware, great competition exists in Egypt in regard to the purchase of land and buildings, and decisions have often to be taken at brief notice, or valuable properties may be lost. When, therefore, the question of re-association between the Boards of the two companies came before the Railways Board, it was unanimously agreed that it would be more in the interests of the land company, as of the railways, which holds a considerable number of shares in the land company, that the representatives of the

railways on the Land Board should be members of the Egyptian section of the Delta Light Railways Board and not of the London section of the Board. The Egyptian members of the Railways Board have every means of adequately informing themselves of the several proposals put before the Land Board, and, unlike the London members of the Railway Board on the Land Board, are as cognisant of the merits of the various questions from time to time submitted to them as are the members in Egypt of the Land Board themselves. By a parity of reasoning it is evident that in the interests of the land company, the members of the Land Board should also be resident in Egypt. If, then, members of the Land Board, whether they were members sitting as delegates for the railways or members of the Land Board proper, were to meet in future in Cairo, it followed that it would be necessary for the conduct of that business that all future meetings, of whatever kind, should be held in Cairo, and that the business of the land company should be transferred to Egypt, the company remaining meanwhile a British company, having in London the registered office and a secretary, but in all other respects transacting its business in Cairo, and not in London. There was the less objection to this course being pursued, in that the Delta Land Company has no debenture debt in London, and there could, therefore, be no objection anticipated on behalf of debenture holders, who otherwise might justly have regarded transfer of control to Egypt as an infringement of the conditions in which they had placed their funds at the disposal of the company. Resolutions one and two are drawn with a view to reverting to the old connection between the land company and the railway company. Resolution number three is with a view to transferring the management and direction of the business of the company to Egypt. This is all I have to say with regard to this branch of the subject. You will understand, I think, from what I have said that the links between the two companies which were severed in July last will now, with your approval, be reconstituted; that the Delta Light Railways will, as before, continue to have four seats, should it wish to claim them, on the Delta Land Board, but that the Land Board so reconstituted will in future meet in Cairo and not in London and that its business will be carried on wholly there, while it remains itself a London company, with a registered office and secretary in London.

THE PROPOSED CAPITAL INCREASE.

With regard to the proposed increase of capital, which is dealt with by Resolution IV., it is necessary to explain to you that the land company have before them a project for acquiring a considerable area of land lying between Cairo and Helouan, in the immediate vicinity of a valuable and larger tract already acquired by them in previous years. Both properties are known as the Meadi properties. The object of the company is to round off the whole of these two properties and to convert them into residential properties, in the belief that such sites will be largely in demand by residents in Cairo and that the sale of the several lots which have been and are being already divided will be of considerable value to the company. Some progress has already been made in the sale of sites on the Meadi land previously acquired by the company and negotiations are now pending with a group who own the balance of land above referred to for acquiring their property. It may be of interest to you to know that when I was recently in Egypt I inquired personally into the merits of the project to which I refer and satisfied myself that, so far as can be ascertained, in the present condition of affairs in Egypt, where much building and land speculation is rife, the Meadi property, which is situated on the Light Railways, a few miles from Cairo, on the line of railway to Helouan, fulfils the conditions which are necessary to make it a popular suburb of Cairo. I understand that a very competent general manager has been appointed by the land company since I was there to carry out without delay the measures necessary to hasten the development of the Meadi property and that members of the Land Board as about to be constituted are sanguine that the enterprise will be very successful and are prepared to devote to it the care and energy which characterise them. You will gather from what I have said that, in common with the other London members of the Land Board, as reconstituted in July last, I must necessarily tender my resignation so soon as you have given your sanction to the proposals now put before you and a confirmatory meeting has been held to ratify them.

THE PROPOSAL STATED BRIEFLY.

Let me repeat in a few words the substance of what I have said. My colleagues and I, in agreeing to put the matter before a general meeting in London, have been largely guided by the fact that the majority of the capital invested in this company has been subscribed in Egypt: that there is no debenture debt held in London: that by far the greater part of the shareholders are resident in Egypt; that the presence of directors of the light railways on the Land Board will strengthen your Board; and that to carry out the enterprise of the peculiarly local and limited nature of the Egyptian Land Company in the conditions which are necessary to success the best means of securing the local knowledge and unanimity which are necessary to that end, will, in our opinion, be found in the creation of a single Board, sitting in Cairo, constituted in the manner which I have explained to you. Before putting the resolutions to the meeting I shall be glad to answer any questions you may wish to put to me or to give you any further information in my power.

Mr. T. P. Singer asked whether any members of the present London Board would in future serve on the Board in Egypt.

The Chairman: No.

Mr. Singer said that being so, it did not appear to him that there would be any continuity from the present Board to the new Board in Egypt.

The Chairman replied that there would not be individually, but the four members who represented the railway on the Cairo Board had always, as members of the Delta Light Railways, been cognisant of all negotiations which had been carried on from time to time by the Land Company. Further answering Mr. Singer, the Chairman said that one of the new members of the Board would represent the property about to be purchased from the group referred to; Mr. Williamson had for some time past been a member of the Delta Land Board, and it would be for the Land Board to appoint the third member. There were obviously practical difficulties in the way of one of the members of the Board being in London, which had been already explained. If they had any they must have more than one. No meetings would be held in London, and the present London members, after all, spent a very short time in Egypt—two months a year at the outside. A minority of directors in London would have to accept responsibility for decisions arrived at in their absence, they being unable to exert any effective control over such decisions; and it would be difficult to find directors who were willing to accept that responsibility. It was better that men on the spot, who were able to inform themselves of all the details, from time to time, should be responsible.

THE RESOLUTIONS.

The Chairman then proposed the first of the special resolutions to which he had already referred, and which, he added, were subject to confirmation at a meeting to be subsequently convened:—

That the special resolution of the company passed on the 19th day of July, 1906, and confirmed on the 16th day of August, 1906, to the effect following:—

That the memorandum and articles of association be varied as follows:—1. By striking out from Section 3, sub-section (a) of the memorandum of association the words "in any district," and by substituting for the words "in which the railways belonging to or that may at any time hereafter belong to the Egyptian Delta Light Railways, Ltd., or any extension or branch thereof existing or hereafter constructed, or proposed to be constructed, may serve or be intended to serve" occurring in the same sub-section the words "or in the Sudan" be and is hereby cancelled.

PROSPECTUS.

The Company has been formed for the objects mentioned in its Memorandum of Association and more especially for the purchase and development and extension of the Abbassia Sand Bricks Company G. m. b. H.

The Abbassia Sand Brick Company G. m. b. H. (hereinafter called the Old Company) was started about two years ago to meet the increasing demand in Cairo and its suburbs for bricks and building materials. A factory was set up by the Old Company and the main work of this factory was the manufacture of sand-bricks.

These bricks are made of a mixture of sand and lime (both of which materials are found in abundance in close proximity to the factory) and possess many excellent building qualities. They are more durable and offer a greater power of resistance than the ordinary clay brick and at the same time they can be turned out ready for immediate use in a far shorter space of time.

These advantages are naturally appreciated by building and construction firms and companies and large contracts have already been fulfilled for some of the most important of these in Cairo and its suburbs.

The Semiramis Hotel is built of sand-bricks furnished by the Old Company, and a contract has already been entered into for supplying sand-bricks for the new Ritz Hotel that is shortly to be erected at Garden City, Kasr-el-Aine, Cairo. Orders have also been received from the Heliopolis Oasis Company, from the contractors for the new barracks at Abbassia and other important building and contracting firms.

In short so many orders have been taken and so many demands have been made on the Old Company that it has been found impossible to fulfil them all with the present factory. It has been decided therefore to form the Cairo Sand Bricks Company Limited (hereinafter called the New Company) to take over all assets and liabilities of the Old Company as from the 31st day of December 1906 and with the increased capital that will be provided to considerably enlarge the factory already in existence.

In this way it is hoped that the output will be more than doubled and that substantial profits will consequently accrue to the New Company.

The purchase price to be paid for the business and goodwill of the Old Company has been fixed at £st. 45,000. This sum will be satisfied by the allotment of fully paid Ordinary and Founders Shares of the New Company as is shown by Agreement No. 1 set out hereunder. For this price the new Company will acquire some 9500 square metres of land at Abbassia and the plant, machinery, fixtures, etc. of the old Company. Further it will take over the benefit of all contracts entered into by the Old Company in the ordinary course of its business as well as all its liabilities subsequent to the 31st December 1906.

The situation of the site of the factory is in the Directors' opinion in every way an excellent one. The necessary material for the manufacture of the bricks is close at hand and in the matter of transport the factory possesses exceptional facilities having at its doors a secondary line of the State Railways and a Branch line of the Delta Light Railways Company. Further lying as it does between Cairo and the Heliopolis Oasis delivery by road to either of these important building centres can be easily effected.

The Vendors to and the promoters of the New Company are the Old Company and the following contract has been entered into by them with the New Company.

N° 1. AGREEMENT dated the 10th day of April 1907 and made between the Old Company whose registered office is situated at Alexandria of the one part and the New Company of the other part whereby the New Company have the right to acquire from the Old Company as from the 1st day of January 1907 subject to the liabilities of the Old Company subsequent to that date its land and buildings at Abbassia and all its plant stock machinery implement materials and good-will for the sum of £st. 45,000 to be satisfied by the allotment to the Old Company of 44,250 Ordinary Shares of £st. 1 each and 15,000 Founders Shares of One Shilling each of the New Company all credited as fully paid. Of this amount no sum is payable for goodwill.

The Articles of Association contain the following provisions:

Art. 85. — The qualification of a Director shall be the holding of Ordinary Shares of the Company to the nominal value of £st. 200.

Art. 86. — As remuneration for their services each Director shall be paid a fixed salary at the rate of £st. 50 per annum. And the Directors shall also be paid collectively the share of surplus profits mentioned in Art. 120 (being the 10% herebefore referred to) and such remuneration shall be divided among them in such proportions and manner as they may determine and in default of such determination equally.

Art. 89. — The Directors for the time being may from time to time appoint one or more of their body to be a Managing Director or Managing Directors of the Company.

Art. 102. — The remuneration of a Managing Director shall from time to time be fixed by the Directors and may be by way of salary or commission or participation in profits or by any or all of those modes. A Managing Director shall unless otherwise determined be entitled to remuneration as a Director.

Art. 111. — If any of the Directors shall be called upon to perform extra services or to travel or reside in any part of the world for any of the purposes of the Company or the business thereof the Company shall remunerate the Director or Directors so doing in such manner as may be determined by the Directors and such remuneration may be either in addition to or in substitution for his or their share in the remuneration herebefore provided for the Directors.

The Minimum Subscription on which the Directors may proceed to Allotment is fixed by the Articles of Association at 25 per cent of the shares offered for subscription.

As before mentioned Mr. Frederick Maurice Singer has in the Memorandum of Association guaranteed the subscription of 54,500 Ordinary Shares and he has formed a Syndicate of Guarantee who by the terms of an Agreement dated 2nd April 1907 (herein referred to as agreement N° 2), have agreed to take firm 19,500 Ordinary Shares and to guarantee the subscription by the public of 35,000 Ordinary Shares. For this the members of the said Syndicate of Guarantee will be entitled to call for and receive a transfer from Mr. F.M. Singer at par of the respective numbers of Founders Shares set out in the said agreement opposite to their respective names.

Other than this no commission will be paid by the Company for underwriting. The preliminary expenses are estimated at £st. 1,000 and will be paid by the Company. Copies of the above mentioned agreements together with a print of the Memorandum and Articles of Association of the Company (a copy of which Memorandum is printed on the back of this prospectus and forms part thereof) may be seen at the Banque de Salonique at any time during business hours before the list of subscription is closed.

Of the Directors the following are interested in the formation of the Company. Mr. Paul Hahnloser has a five twelfths and Mr. Albert Baechler a seven seventy fifths interest in the profits of the Old Company.

The following Directors are members of the Syndicate of Guarantee above mentioned. They will take firm the number of the Ordinary Shares set out in the first column hereunder opposite their respective names and will guarantee the subscription by the public of the number of Ordinary Shares set out in the second column hereunder opposite their respective names. For this they will receive a transfer at par from Mr. F.M. Singer of the number of Founders Shares set out in the third column hereunder opposite their respective names while Mr. F.M. Singer will retain the number of Founders Shares set opposite his name.

No. of Ordinary Shares taken firm. No. of Ordinary Shares underwritten. No. of Founders Shares to be transferred at par.
